

### Puzzle 3A:

This puzzle occurs near the middle of *Grids for Kids: Level 3*. A tutorial for this puzzle is included in *Grids for Kids: Level 3* book.

Four people (Bob, Jim, Ken, and Travis) are participating in a parade. They are each riding a different vehicle (on a float, in a golf cart, on a bike, or in a truck bed), and wearing a different costume (sheep, baseball uniform, clown, or bear). Match each person with the appropriate vehicle and costume.

- 1) The four people could be referred to as the person wearing a clown costume, the person wearing the baseball uniform, the person riding in a truck bed, and Jim.
- 2) Another way of referring to the four people is the following: Ken, the person wearing the clown costume, the person wearing the sheep costume, and the person riding the golf cart.
- 3) The person dressed as a baseball player is riding on a float.
- 4) When asked where he would be in the parade, Bob said he wasn't sure, but he would either be on a float or riding a bike.

	on float	golf cart	bike	truck bed	sheep	baseball uniform	clown	bear
Bob								
Jim								
Ken								
Travis								
sheep								
baseball uniform								
clown								
bear
